

SHERLOCK

QUICK START

AIVIUK

Thank you very much for choosing us.

Let's get started with your new Niviuk product!

This QUICK START guide will give you an overview of the first steps to start flying with your new SHERLOCK.

If you want or need to delve deeper into these or other aspects of your harness, **please consult the product manual here:**

MANUAL SHERLOCK

* The manual contains more information about your new product, and we recommend that you read it carefully before your first flight.

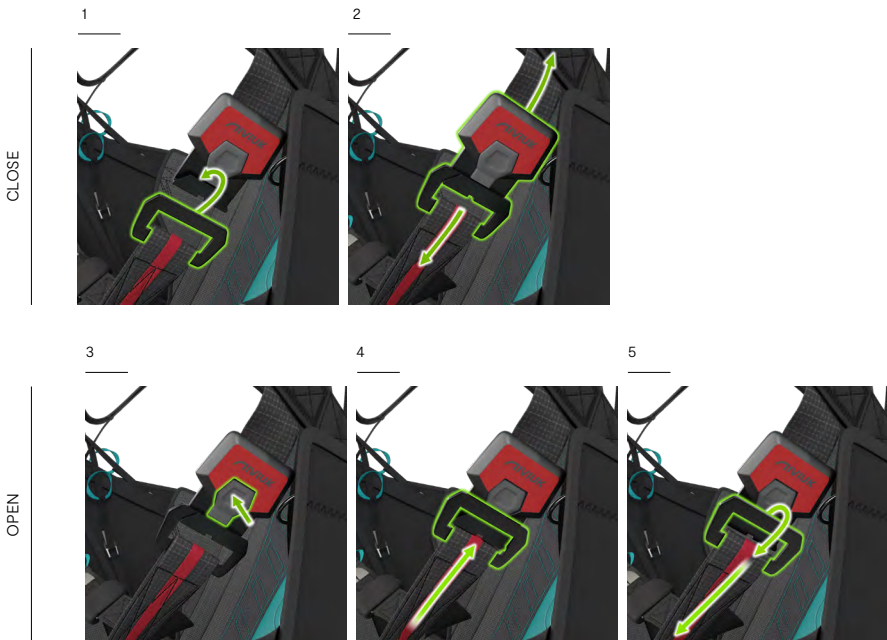

01

HOW TO CLOSE *your harness*

Close the T-lock with only two Edelrid buckles. Pass the open end of the buckle over the hook and pull both ends.

The click will indicate that the buckle is securely closed.

To open, press grey button and remove the end of the buckle from the hook.

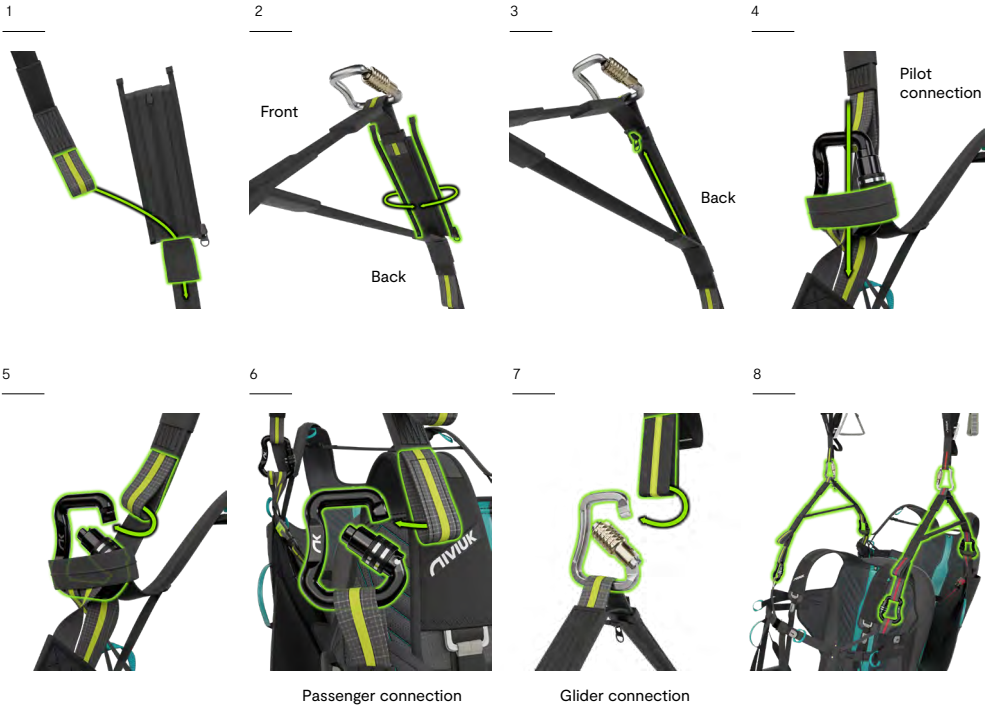

02 HOW TO CONNECT IT

to the wing and the passenger harness

Connect the SHERLOCK harness using tandem spreaders with 40mm auto-locking carabiners. The right side is green, and the left side is red.

The tandem spreaders are connected to the wing with a stainless-steel auto-locking carabiner.

ⓘ Make sure that the carabiners are always properly closed and secured.

03

INSTALLATION *of the protection*

To use the SHERLOCK with the airbag, you don't need to perform any steps.

If you want to use the foam protection, which is delivered in two parts, you should place it inside the airbag:

Close the zipper on the left side and done!

Identify the two parts of the foam protection.

Insert the left part of the foam and place it in the correct position.

Open the zipper on the left side.

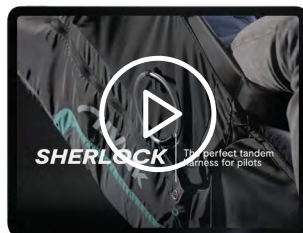

Insert the right part of the foam and place it in the correct position.

04

INSTALLATION *of the parachute*

In this [manual video tutorial](#) of the harness, you can see how to install the parachute.

- ⓘ Your safety depends on the parachute being installed correctly. Perform the process with care. We recommend having it done by a professional.

05

PACKING

You don't need to follow any specific steps to pack your SHERLOCK, but you should avoid bending the Nitinol rods of the airbag at sharp angles to prolong their durability.

MYNIVIUK:

Register your product

You can register your new SHERLOCK harness on the Niviuk website, under the My Niviuk section, and enjoy its benefits.

PRODUCT REGISTER

WARRANTY:

Quality commitment

All equipment and its components are covered by a 2-year warranty against any manufacturing defects.

The warranty does not cover misuse or normal wear and tear of materials.

Any modifications made to the harness or its components invalidate the warranty and certification.

If you notice any defects in your harness, contact Niviuk immediately for a thorough inspection.

NIVIUK SERVICE:

Care and maintenance

Your harness should undergo inspection every 24 months and be regularly checked by a professional. Any potential damage should be repaired at an official workshop before the next flight.

Niviuk Service is the official workshop of Niviuk. We aim to ensure the safety and durability of your new product, so our workshop is the perfect place to have it inspected and/or repaired.
