Test laboratory for paragliders, paraglider harnesses
and paraglider reserve parachutes

Paragliding Harness - EN / NfL

Inspection number : **PH_486.2025**
Manufacturer : **Niviuk Gliders**
Model and size : **Arrow P 2 M**
Maximum pilot weight [kg] : **120**
Integrated container for rescue system: **Yes**
If Yes. Volume of the container [cm³] : **1800 min 5500 max**
Serial number: _____
Production date (year / month) : _____

Harness protector (impact pad)

Impact pad type: **Foam**
Impact pad integrated: **No**
Impact pad number: **MISC_255.2023**
If not integrated : Manufacturer Serial number:
Production date (year / month) : _____

Warning : Read the operating manual before using this equipment!

A sample has been tested and certifies its conformity with the following standards: **NfL 2024-2-785**,
EN1651:2018+A1:2020 and **EN12491:2015+A1:2021**. This model corresponds with the tested sample and its
airworthiness.

EU Type Examination Certificate

Date: 2026/03/23

n. **1079261301/OE**

Validity: 2029/06/19

This Certificate cancels and replaces the previous one nr. 1079242501/OE dated 2024/06/20.

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	AIR GAMES SL Carrer del Ter 6-Nave D, La Celler de Ter, Girona – SPAIN
Type of PPE:	Impact pad for paragliding harness
Category of PPE:	II : "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.
Model	"ARRFO P"
Description:	Foam impact protector to be fitted into paragliding harness. This impact protector is removable, and therefore it can be detached from the harness.  The complete material description and construction of this impact protector can be found in the Technical File of reference. This impact protector is associated with the reference paragliding harnesses: <ul style="list-style-type: none">▪ ARROW P▪ ARROW P R▪ ARROW P 2 See pictures on page 3.
Technical Standard:	EN 1651:2018+A1:2020 Paragliding equipment – Harnesses – Safety requirements and strength tests
Intended use:	reduce the compression damage to the spine of the pilot in case of wrong landing in paragliding activities.
Size range:	from S to L
Technical File:	DC-17353 + 21205/E
Test report:	AIR-TURQUOISE SA n° MISC_255.2023

EU Type Examination Certificate

Date: 2026/03/23

n. **1079261301/OE**

Validity: 2029/06/19

Functions and performance levels:

Prevent injuries caused by impacts that may occur in paragliding activities, by absorbing the impact energy to the body of the pilot.

The protector passed the impact testing performed with a test dummy (min. 50 Kg) lifted up to a minimum height of 165cm (measured from the impact surface to the lowest point of the dummy).

Requirements:

- maximum peak value: 50 g;
- at value of 38 g: maximum duration of 7 ms;
- at value of 20 g: maximum duration of 25 ms.

Marking:

on a stitched label displaying the following information:

- **CE Marking;**
- registered trademark and web site of the Manufacturer;
- item designation;
- nr. and year of the European Standard;
- size indication;
- date of manufacture;
- test reference number;
- notice inviting the user to read the user manual;
- additional info: name/address of the test house and "Made in...".
