NIVIUK

MAIN PRODUCT ADVANTAGES

WATSON

Advantages

> A passenger harness to enjoy the moment

- Ergonomic design thanks to the foam seat and backrest.
- Fastening system fully adaptable to each passenger.

WATSON

Advantages

> Maximum safety in flight

- Thanks to the Square Buckle fastening system and an airbag with optimised ease of inflation, safety is assured from the moment of takeoff to landing.
- Better load distribution thanks to oriented, reinforced transversal seams to avoid hard lumps, folds or excessive tension in the material.

WATSON

Advantages

> Adapted to every need

- The Watson easily transforms into a backpack that makes carrying the helmet and all the personal belongings of the passenger simplicity itself.
